

Imagine an extraordinary world where everything in your home or workspace is integrated and controlled seamlessly from one simple device, delivering maximum comfort and convenience.

With one touch, dim the lights, play music, adjust the temperature, lock the doors and set the security system. Check in on your home from your smartphone or tablet, from anywhere in the world.

avp group specialise in the design and installation of bespoke automation solutions for your home and business.

We work directly with clients, architects, interior designers and building contractors from planning stage through to completion and we offer the full range of smart technology solutions in-house.

This means you'll require just one carefully designed plan and our dedicated, experienced and friendly team will guide you through the process.

WITH OVER 25 YEARS' EXPERIENCE, WE HAVE THE KNOWLEDGE AND EXPERTISE TO GUARANTEE EXTRAORDINARY RESULTS.
